

Games that **open instantly** and run on anything.

Launchway Games is an independent studio in Ontario, Canada, making browser games for screens and platforms you control. Every game ships as a single HTML file that makes no external requests, so it runs from a web server, a folder or a kiosk with no connection at all. More than fifty are ready now, from pool and bowling to sudoku, jigsaws and colouring.

THREE WAYS TO LICENSE

01

Single Title

One game, delivered as a build configured for you.

For portals, publishers and brands.

02

Venue Collection

Games chosen for your audience, behind a plain menu or a 3D hub, in your branding.

For waiting rooms, kiosks, stands and seat-backs.

03

Full Catalogue

Every game, behind the same menu or hub.

For large venues and networks of screens.

WHY IT WORKS

One file, nothing to install. One HTML file per game: no SDK, no assets folder, no build step.

No ads, no tracking. No accounts and no personal data; progress stays on the device.

Doesn't depend on us. Nothing phones home, so installed screens keep working whatever happens here.

Runs offline. Zero external requests, checked by an automated test on every build.

Your branding. Your name, colour and mark on the title screen, and domain locking if you want it.

Made for shared screens. Touch-first, and many games seat two to four players on one screen.

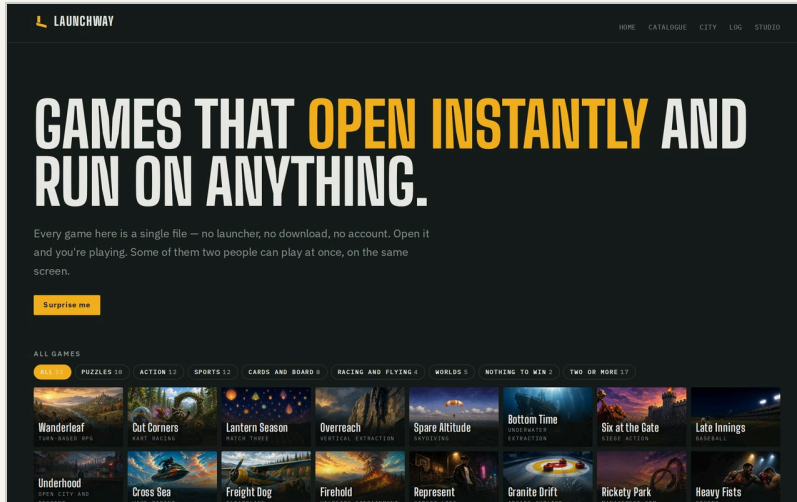

Non-exclusive by default; exclusive by arrangement. Copyright stays with Launchway Games.

A few of the games

Every game here is playable now at launchwaygames.com, on a phone, a tablet or a computer.

The front end

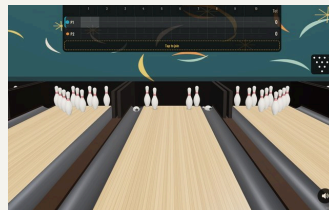

A collection opens on a **plain menu of tiles**, the one on launchwaygames.com's home page, with filters by kind of game and number of players; or on **the City**, a walkable 3D hub where every game is a building. Either one carries your branding.

Level Table

POOL · UP TO 4

Eight-ball and nine-ball: play the computer or pass the screen around.

Five and Ten

BOWLING · UP TO 4

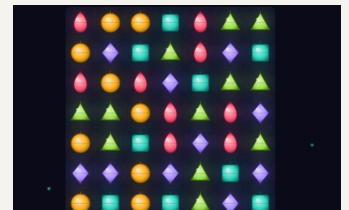

Ten-pin and five-pin. One swipe sets the line, the hook and the power.

Backboard Buzz

BASKETBALL · 2

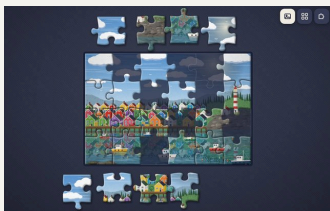

Sixty seconds, four balls. Take the other hoop to race a friend.

Lantern Season

MATCH THREE

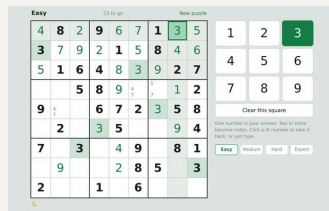

Match lanterns and they rise. Twenty moves a night.

Box Lid

JIGSAW

A jigsaw with the corners already in. Pieces lock into place.

Nine Apart

SUDOKU

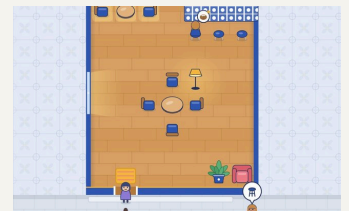

Sudoku with no guessing, from Easy to Expert.

Inside the Lines

COLOURING

Tap a shape and the colour pours in, never past the lines.

Ten Seats

CAFÉ

A small café with no clock. Seat guests where they will be happiest.
